

TGN Master Document

Anonymous, goes by the pseudonym TGNWakandaLeaks

Abridged and Consolidated by Cooopl on July 6, 2021

To make the [Master Document](#) accessible on archive.org and the wiki, I have decided to place the most important images on this document (you might have to zoom in to read the text on images, sorry). Also keep in mind that I was never part of TGN so this abridged version might be biased.

I will keep hyperlinks for those who want to see the rest of the images. In addition, I removed mentions of "Part 2", which would leak *all* moderator chats, but that was never released. I trust that the original document will stay up indefinitely, but in the case that it is taken down this can be an alternative source. Enjoy this crucial piece of history!

Preamble

This document has the misconduct, disrespect, and poor decision making in the modchats of TGN and the r/Teenagers Discord server, made using a big leak of moderator chats in those servers. This doc is focused on the TGN side, and has snippets of moderator chats which all relate, formatted like [this](#).

Attempting to Split from NSA

SPLITTING FROM NSA

The mod team, with caro, attempted to cut out NSA and make their own Minecraft server called TeenGamingDays (we also have all of these channels). After the mod team realized some players knew, this plan entered a state of limbo.

caro 02-Jul-19 11:24 PM
I thought people knew a 1.14 server was coming out at some point
the issue is how o8f and others knew NSA "won't let the server go"
and how we're "trying to break away"

thex 03-Jul-19 01:47 AM
Here is when he first said two mods

FryingDory Yesterday at 9:46 PM
I have been told directly by two mods,
independently, that NSA has nothing to do with
the 1.14 server

caro 02-Jul-19 11:30 PM
NSA will get bored and give up the server at some point. If he doesn't, I'll ask him kindly to break away and he won't be the official TGN server. That's all there is to it. He's 21, and collecting money from kids. That **liability** and fiasco in the end will fall on my shoulders. (edited)
Hence the separation.
Also, seems like many of you are resentful to how he doesn't do anything besides administrate the server

crUnkKy 03-Jul-19 01:55 AM
we need to make a really good lie for why we are doing this to **NSA**
any ideas?

FarFromSane 03-Jul-19 01:56 AM
nothing
until we actually do it
idk
we dont have to give them a reason

muzak23 03-Jul-19 02:07 AM
can let him know **NSA** doesn't know
cause if he realizes that, then we lose a LOT of bargaining power
on multiple fronts

waitjayla 03-Jul-19 02:07 AM
god so problematic

thex 03-Jul-19 02:07 AM
He knows **NSA** doesn't know, or could figure it out. It isn't really that far of a jump from where he is now

This doesn't mean we have to share things like how we may be leaving **NSA**'s administration but it would have

caro 14-Jul-19 08:35 PM
That's not someone who's gonna be sitting pretty.
Nothing has changed from what I've said...
there's going to be a break
I still need to talk to **NSA** more in-depth but the plan is to separate his server from this community

caro 16-Jul-19 10:44 PM
@everyone

I apologise for that entire spiel by **NSA**. We previously had one "lengthly" though in no way in-depth conversation as he said last week, and we exchanged maybe 8 messages in total yesterday. We never reached any conclusion, just more of a "this is the route I'm thinking is best" and some minor details about branding. If you felt like you were left out of the process, please understand that was NEVER the intention and I had plans to talk about this w/ you guys in the next few days rather than sooner (instead of fucking right now at 10:30 on a Tuesday night) since I'm still catching up on things. You guys pretty much know the plan since we've talked about it a few times. The plan is to separate **NSA**'s server from TGN w/ no affiliation and then build a new community up after a break to re-work TGN.

I told **NSA** that absolutely no branding or affiliation was to be used on his server BESIDES the osmc.teengamingnights.net IP since I know what a ballache it'll be to redirect users. The whole using TeenGamingNights as the name of the community wasn't agreed upon, or quite frankly even mentioned by **NSA**.

We also didn't have a conversation about what the process will be with removing mods/keeping mods.
We also didn't discuss a date, nor did he tell me when the reset would be. I asked of him to give 2 or so weeks for you guys to finish up any events or whatnot, but again no dates, no timeline was discussed.

TEENGAMING DAYS TIMELINE

Muzak, Turtleboim, and other moderators started using muzak's private testing server as a TeenGamingDays beta. They hoped to eventually switch this in with TGN.

Turtleboi 16-Jul-19 11:15 PM

7/20 - Finalize our immediate plans for the server
7/25 - Announce plans
8/1 - Officially separate TGNMC from the minecraft server
8/1-x - Merch drive
8/1-31 - Plan out how we will be handling the future of TGN as a whole. Obviously there is a lot to discuss here which is why I have a whole month allocated. Individually I'm sure there will need to be goals within the month which I can't really account for now. Taking the time to make sure that this is done correctly and that for the parts that matter the rest of the mod team is involved is a priority. There is no need to rush setting everything so the 31st date is kind of not a hard deadline.
9/1 - Begin finalizing the minecraft server that will be used when we are ready for testing
9/4 - Continue the search for good hosting platforms. This is a good spot to remind you all that once we have a solid host we can combine the overall funds and hosting machine so that we can no longer worry about being able to maintain the Terraria server.
9/10 - Finalize server hosting
9/12 - Begin setting up the server for testing
9/20 - Finalize server and begin stress testing
9/24 - Announce plans for new server
10/1 - Open server

Okay so this is probably not a great schedule but at least it is something.

okay this took too long for something that isn't going to happen lol

Full “Modgate” Story

THE TRIUMVIRATE

Two channels related to Minecraft modding exist: #Minecraft-mods and #Mc-mods-sensitive. Only three moderators have access to mc-mods-sensitive, and they were not demodded. These three mods (muzak, turtle, thexman) call themselves the “Triumvirate”. GirlYouForgot was excluded for an unknown reason. In a private ARC chat, o8f began posting screenshots from the same source this document is based of. This prompted caro to immediately remove all mods she “could not trust”. The following are moderator comments on this issue (censored for privacy):

I believe i was demoted because caro understandably wanted to not have a leaker in the mod team, and she only knew of some people who she could trust. To her, the 4 people in the sensitive chat are the only ones she could trust 100%. Thus, she removed every mod not in the chat.

easy answer is that I wasn't part of the "cool kid mod team"

Distaste for Criticizers

OGBUBBY

 Turtleboi 07-Jul-19 10:00 PM

Actually I'm not even done yet. Bubby used the gullible people of TGN MC to advocate for his unban. There is actually no argument that this is not true. He (indirectly) convinced people to literally change their minecraft names to support his “cause”. For many his ban was a final straw in a string of moderator “mistakes”. I'll say that certainly yes we have made plenty of mistakes, but good god if he thinks that his ban was incorrect he is smoking some weird ass shit. I really don't see an argument other than that he could've been warned (which is fair and the only reason why I said I would've said yes to his appeal looking back).

OGBubby is one of the most toxic people I've ever met. I've met a lot of fucking people and he is right up there. Unlike a lot of toxic people he is very obvious that he is trying to manipulate people. People just want to fit in. In the end it comes down to that cliquey feeling that he gives people by supporting him. I don't know what else to say to this really.

Everything he talks about and the language he uses is well used to manipulate people. He is a martyr for people. He represents bad moderation (yes I know a martyr is someone that dies for something they believe in) even though it wasn't even bad moderation.

We really need to have a break. People in general need to get their shit together.

 waitjayla 07-Jul-19 09:31 PM

Ignore him

He's a child, that believes he is right and thinks all his actions are good

 alexx 16-May-19 11:01 AM

these people are 2 iq

i cant wait for the day ogbubby and his group are gone tbh so annoying

I think bubby needs to wake the fuck up. He revolves everything around himself and barely thanks the community that holds him at such a high regard. He doesn't take any effort to better himself like he is the perfect person. One of my old friends in teenserv literally had to tell him to shut the fuck up when he was ping me asking about the reset and generally acting like an ass in teenserv.

Part of me pities bubby Similar to will at heart they just want to play minecraft with their friends. I liked bubby's appeal a lot. Looking back I would've said yes (even after this). But in the end he has not changed. The community doesn't care about his actions because they don't have to deal with them.

TGN MC is now the fucking bubby show. He runs the community on his high pedestal knowing that few will dare to oppose him.

Bubby needs to grow the fuck up.

And one final fuck you to discord's character limit

CREAMYNOTEBLOCK

 **waitjayla** 08-Jul-19 12:51 PM

 **waitjayla** 15-Jul-19 01:55 PM
@muzak23 ignore **creamy**, hes dumb. he tried arguing how **o8f** is related to minecraft and shares your dms.

O8F

 **muzak23** 02-Jun-19 11:33 PM
we need to mobilize ogbubby and **o8f** and the gang and have them get mad at those mods

 **thex** 06-Jun-19 11:45 PM
As long as **o8f** doesn't get arc I'm good with it

 **muzak23** 29-Jun-19 08:35 PM

 **MarioFoli** 29-Jun-19 08:35 PM

 **waitjayla** 09-Jul-19 10:22 PM
o8f is very egotistical and thinks he carries TGN; really just ignore him.

CONNOR7000

 **MarioFoli** 12-May-19 10:56 PM

 **muzak23** 01-Jun-19 12:41 AM
yeah, **connor** basically got warned that hes on thin ice, then he didnt like that so he resigned

Various Actions of Caro

VETOING BUBBY'S UNBAN

Caro overturns a 7-2 vote, keeping OGBUBBY banned.

 **muzak23** 14-Jul-19 06:30 PM
Well i guess **bubby** is getting a discord unban
7 yeses, 2 nos, and a few maybes
Any last minute vetos? Or am I ok to do it

 **caro** 14-Jul-19 08:30 PM
I don't think I can allow **Bubby** to be unbanned, lol

 **caro** 14-Jul-19 08:32 PM
This might be a place where I'm going to have to make an executive decision on this one, because I cannot justify **Bubby** being unbanned and again allowing a floodgate of problems into this community.

 **caro** 14-Jul-19 08:34 PM
He will bring problems back into here, and continue to stir up more shit more than if he wasn't unbanned and other people did.

GIVING UP ON TGN

Caro spearheads an effort to *intentionally* kill TGN, trying to remove “toxicity” and make toxic players quit.

 **caro** 06-Jul-19 12:25 PM
yeah i decided i'm making MC have a break entirely

 **crUnkKy** 06-Jul-19 12:25 PM
wdym

 **caro** 06-Jul-19 12:26 PM
this team's problems coupled with the plans now known the to community means i have no incentive to keep MC up anymore
I'm not even going into detail since it'll all be leaked anyways but another server is not going to be in the works for a long time

 **crUnkKy** 06-Jul-19 12:28 PM
oof

 **caro** 14-Jul-19 08:35 PM
That's not someone who's gonna be sitting pretty.
Nothing has changed from what I've said...
there's going to be a **break**
I still need to talk to NSA more in-depth but the plan is to separate his server from this community

 **Turtleboi** 08-Jul-19 09:09 PM
As far as the community knows we have no plans for any future activities for this server or even any plans for 1.14. This needs to change. Even though it is not a solution we need to do an event in the next week. I don't have any ideas currently but I don't see it as a question that this is important. **Even if we are** **hoping** that **toxic players quit** (which like I said I think we are more hoping that people change and grow) is not the solution to a greater issue. Shunning out

Ridiculing the TGN Community

STEREOTYPING

There is a stereotype about the TGN community, reinforced by moderators.

 **Turtleboi** 24-Jun-19 07:03 PM
TGN is such a **toxic** space. People literally said nothing right when we banned bubbby but as soon as popular people started talking about it all those same people started saying bad ban unban.
It's exactly like stereotypical high school. Cliques, trying to fit in etc

Extras

MOD TEAM LIES TO O8F

The mod team lies to o8f about his ARC proposal, claiming it was sent to NSA.

PLAYER IP DISTRIBUTION

The moderation team publishes players' IPs in their chats. You shouldn't do this, as evident by this leak.
